The district is reported to be one of the pretty spots on the earth, because of its congenial climate, innumerable springs streams, water falls, fragrant flowers delicious fruits and other natural sceneries. Besides district Pulwama is famous all over the world for Saffron cultivation which is mainly grown in Karewa land of Pampore, Parigam, Kakapora and Pulwama Blocks.

There are important shrines and templates in the districts to name a few Khankha Tral built by Mir Syed Ali Hamdani, the great saint and Scholar of Iran, besides the town Awantipora presents the remnant of the buildings and sculptures of the time of the king of Awantivarman.

Agriculture is the main occupation of people. 70% people are engaged with this activity and the remaining 30% are engaged with other occupations. The district is also famous in fruit Cultivation. Tehsil Pampore have acquired in the district a distinction for cultivation of Saffron. The Saffron "Crocus -Sativas", of Kashmir is famous for its bouquets and is in great demand as condiment and as pigment for forehead marks of the Hindus. Agriculture contributes a major portion of the income of the people residing in the district followed by fruit cultivation.

The Kashmir valley is well known for Quality Saffron and represents one of the major Saffron-producing areas of the world, dating back to 750 AD. However, in the last decade production and productivity of this crop has shown a declining trend. This event highlights the practice followed in Saffron cultivation in Kashmir and discusses different factors responsible for the decline in saffron production. It also stresses the need for using quality planting materials, a sprinkler irrigation system, pest and disease control measures and an efficient marketing system for increased profitability. Pressure due to increased urbanization on land on which saffron grows and clandestine saffron smuggling are contributing towards the decline of the Saffron industry.
